

RoHS Compliance Letter

December 3, 2012

Ioline Corporation manufactures and sells printing, cutting and decorating equipment that contains electronic and other components included within the scope of the Reduction of Hazardous Substances (RoHS) Recast Directive 2011/65/EU.

This letter certifies that, to the best of our knowledge, all components used in the manufacture of new Ioline equipment sold on or after January 3, 2013 comply with 2011/65/EU. This compliance includes the following products:

- SmarTrac I/S (all models)
- 100 System
- 300 System
- 350HF System
- CrystalPress
- FlexJet E Printers

Direct all RoHS inquiries to the individual listed below.

Kevin Reed
